Play slideshow; discuss using slide notes guide

The Project

Optional: Play instructional video to allow you to assist students as they follow along; pausing video as needed

1. Give each student a piece of cardstock and a sharpie
2. Have students write their name using pencil on the cardstock; flip over
3. Draw a line or multiple lines in the style of Martin all around the sheet of cardstock
4. Fold paper into a zine (see illustrated instructions on next page or follow instructions below); use closed sharpie to create sharp crease with each fold, lines should be facing out
 - a. Fold cardstock in half “hamburger style”; unfold
 - b. Fold cardstock in half “hot dog style”
 - c. Fold long ends together; fold over again
 - d. Open to full sheet of cardstock; you should see 8 rectangles in the folds
 - e. Fold in half “hamburger style”
 - f. Cut halfway along center fold line (younger students may need assistance with this step); unfold
 - g. Fold in half “hot dog style”; stand paper up with cut edge at the top; push ends together to make the center fold out into a star shape
 - h. Fold over to make a book
5. Once folded into a zine, ask students to designate the “back” page and write their name; they may also write “back” if they wish
 - a. Note: The “back” page of the zine will be glued to mounting paper
6. Add additional images, words, doodles, and details, such as dotted lines, faces, people, flowers, and trees to complete your artwork; draw what inspires you!
7. Encourage students to sign their artwork, if they wish

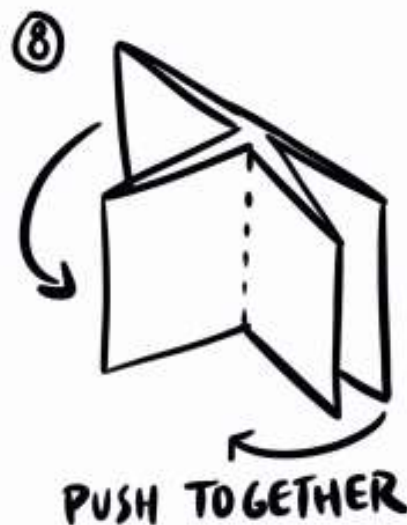

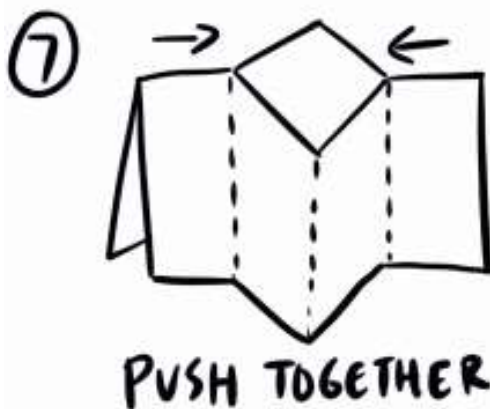

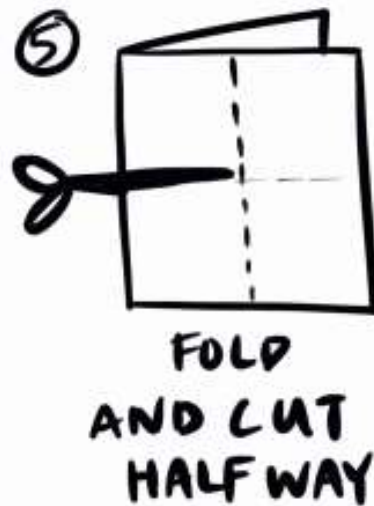

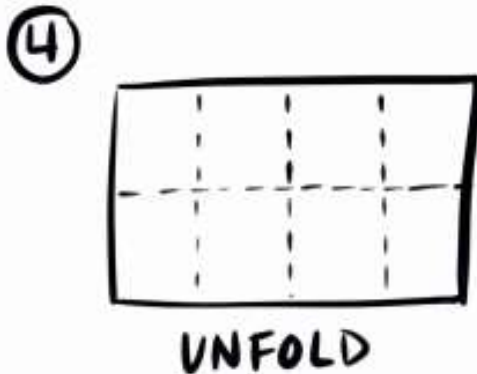

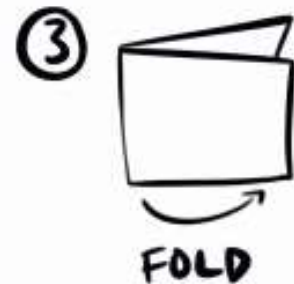

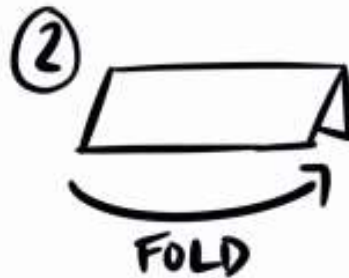

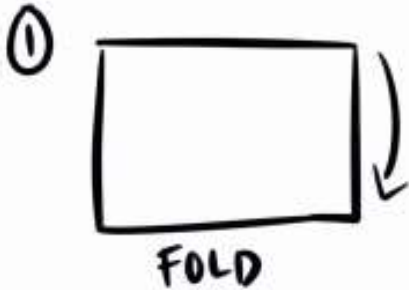

Optional: if students finish early, they may make additional zines with the extra paper on the cart; please do not provide additional cardstock unless a student needs to restart their project that is to be mounted.

Clean up & Display

- Glue the back of the zine to mounting paper; label and display

The Art Lit team at Metzger created this project! Thank you!

HOW TO MAKE A ZINE

*DASHED LINES ARE FOLD LINES.
